**This role is only open to candidates that will be residing in, and legally permitted to work in, Canada.**

We are looking for passionate and dedicated individual who want to join our client's mission to accelerate the adoption of electric-first marine vessels by leveraging software to improve financial outcomes and reduce greenhouse gas emissions.

**IntraTEC Employment Solution Inc. is the exclusive recruitment representative for RIMOT's**

Rimot is a progressive and growing technology company based in Dartmouth, Nova Scotia with a talented team that develops products to solve complex software challenges on the network's edge in the industrial, communications and energy spaces. The company is developing software to unlock the full potential of batteries on board electric marine vessels to the benefit of both vessel operators and utilities alike.

### What you will be doing

The Project Manager works collaboratively with the Rimot team to manage planning and execution and balancing of multiple projects starting with those relating to deployment of marine vessel energy management technology. You will work closely with the software development team and project stakeholders to ensure that project outcomes support the development team as they build Rimot software product(s). An important part of your role will be to coordinate the day-to-day activities of project team members. You'll bring a project management mindset to projects to control cost, schedule and scope while meeting customer objectives and targeted project outcomes.

**Experience** - Does this sound like you?

- 2-5 years of project management experience with demonstrated use of project management best practices (Ie. PMBOK, Agile, etc.)
- Prior project management experience with technology deployment projects in industrial, energy, marine, or similar sectors
- Experience with project management toolsets and software like MS Project, Jira or others
- Entrepreneurial mindset and an understanding and respect for the positive value software products can bring to customers
- Cares about users, great design, documentation, process improvement, collaboration, and teamwork
- Excellent time management and problem-solving skills, with good communications skills
- Thinks the environment matters and wants to help with greener energy and bluer oceans

Rimot.io Inc. recognizes the need for a flexible workplace and offers employees the ability to work both in-person and remotely to best align with the company needs and public health and safety measures.
